Adobe Commerce (Magento)

Brainvire
Shaping Ideas

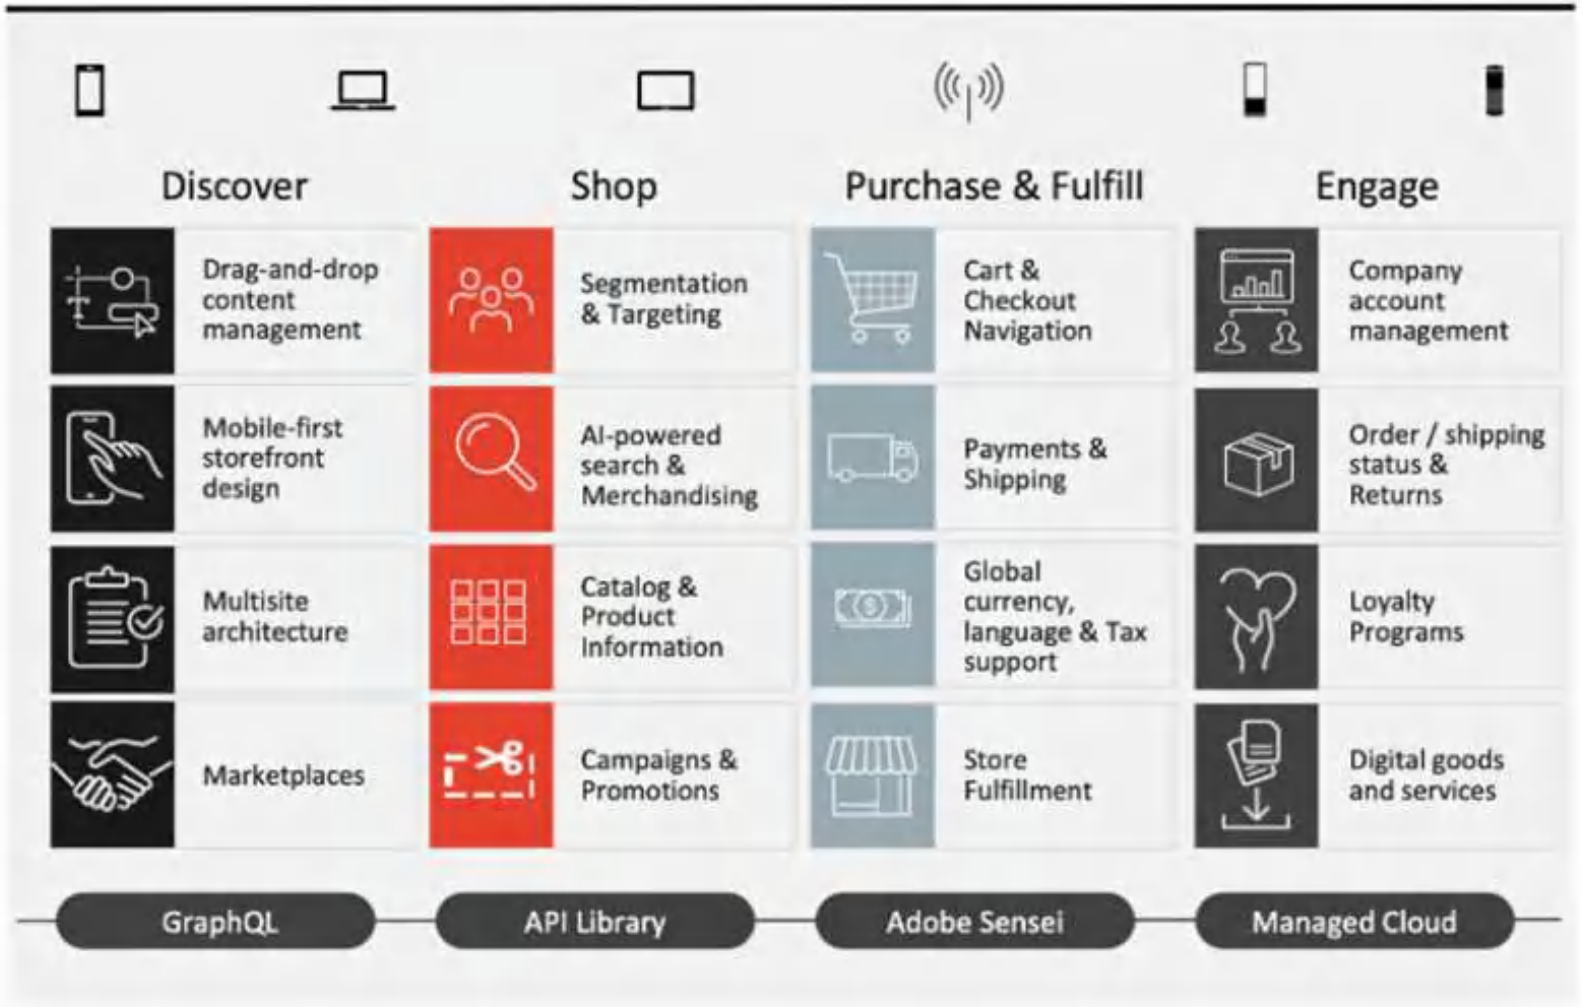
Gartner 2021 Report

Adobe Commerce Out Of The Box

Brainvire
Shaping Ideas

❖ ***Adobe Commerce*** gives businesses the power to create seamless shopping experiences.

1. Experience Driven Commerce
2. Sell to Anyone, Anywhere on One Platform
3. Business user enablement
4. Fastest Enterprise TTM
5. Flexible, Open Platform
6. Adobe Advantage



Adobe B2B Commerce Out of Box

Brainvire
Shaping Ideas

Shared Catalog

Ability to maintain gated shared catalogs with custom pricing for different companies

CompanyCredit

Allows companies to make purchases up to the credit limit that is specified in their profile

Request For Quote

Authorized buyer from a company can initiate the price negotiation process by submitting a request to negotiate the price

Requisition List

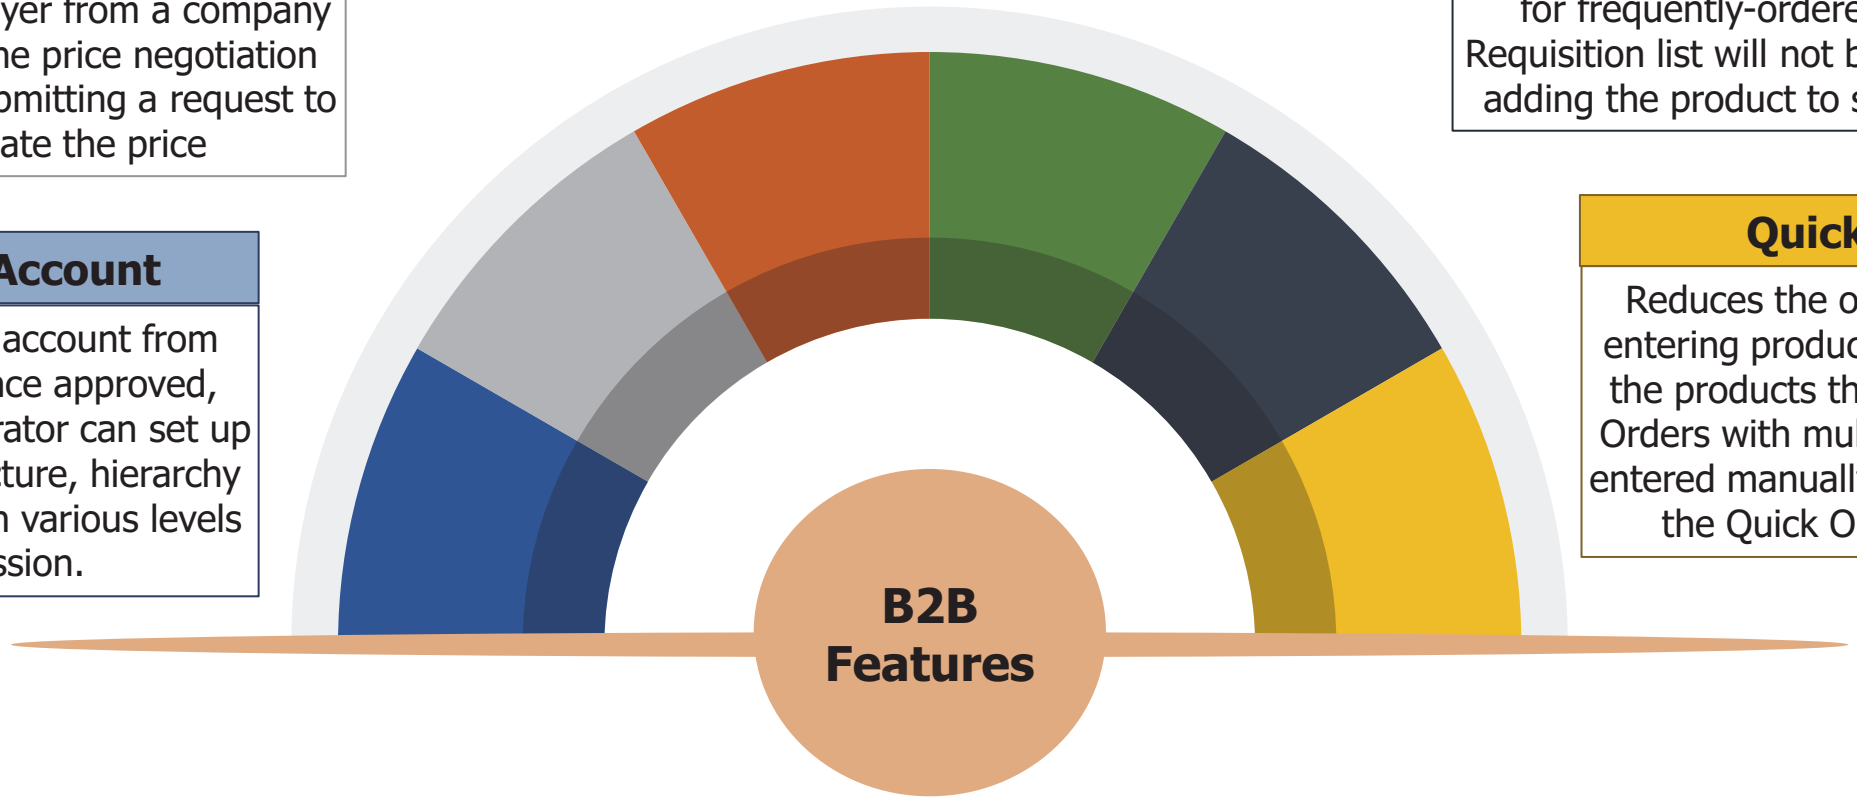
Create & Use a multiple requisition list for frequently-ordered products. Requisition list will not be cleared after adding the product to shopping cart.

Company Account

Create Company account from storefront and once approved, Company administrator can set up the company structure, hierarchy and users role with various levels of permission.

Quick Order

Reduces the order process by entering product name or SKU of the products they want to order. Orders with multiple SKUs can be entered manually, or imported into the Quick Order CSV form

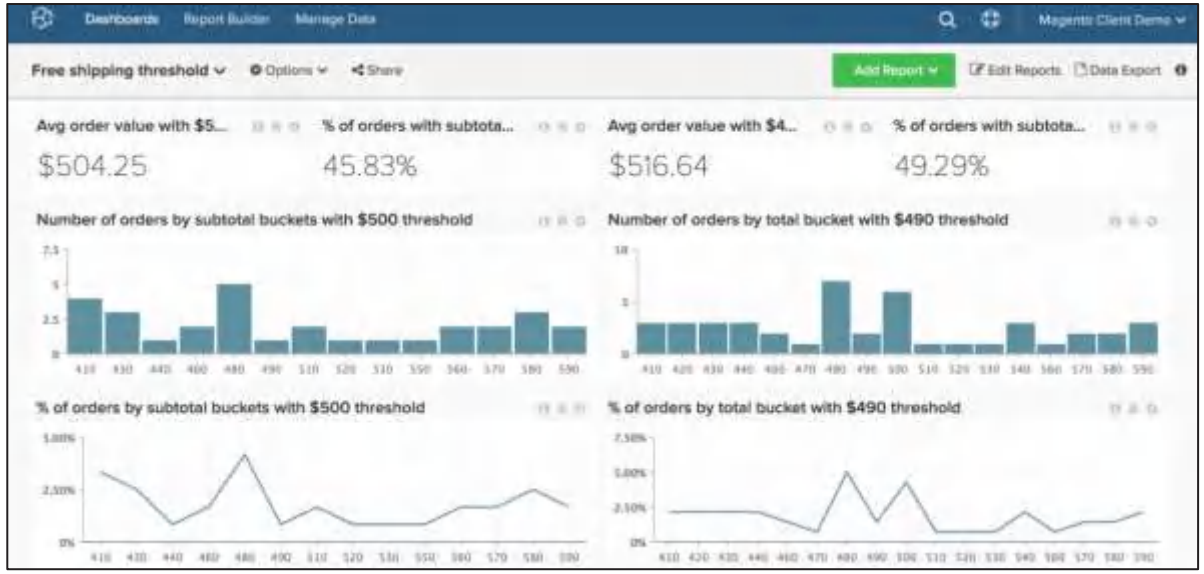


Magento Business Intelligence (MBI)

Brainvire
Shaping Ideas

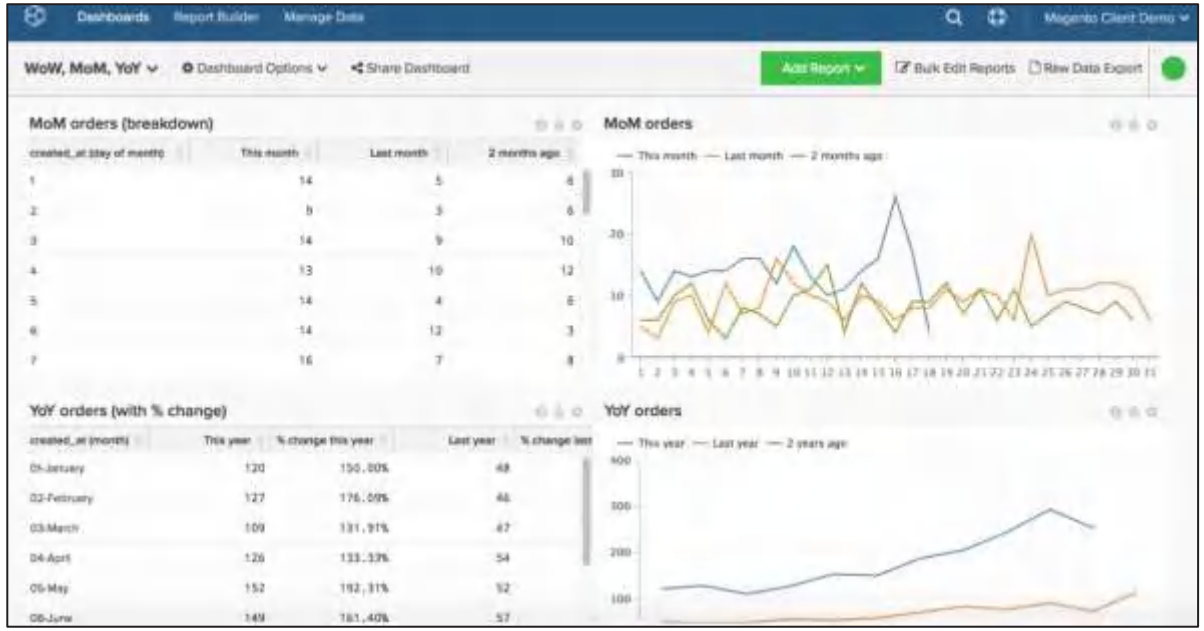
By integrating MBI, retailers can **analyze the deep insightful data –**

- Campaign
- Advertisement
- Coupon Code Campaign
- Customer Lifetime Value (CLV)
- Business Performance Analytics
- Recency, Frequency, Monetary (RFM) Analysis



Benefits of integrating Magento BI –

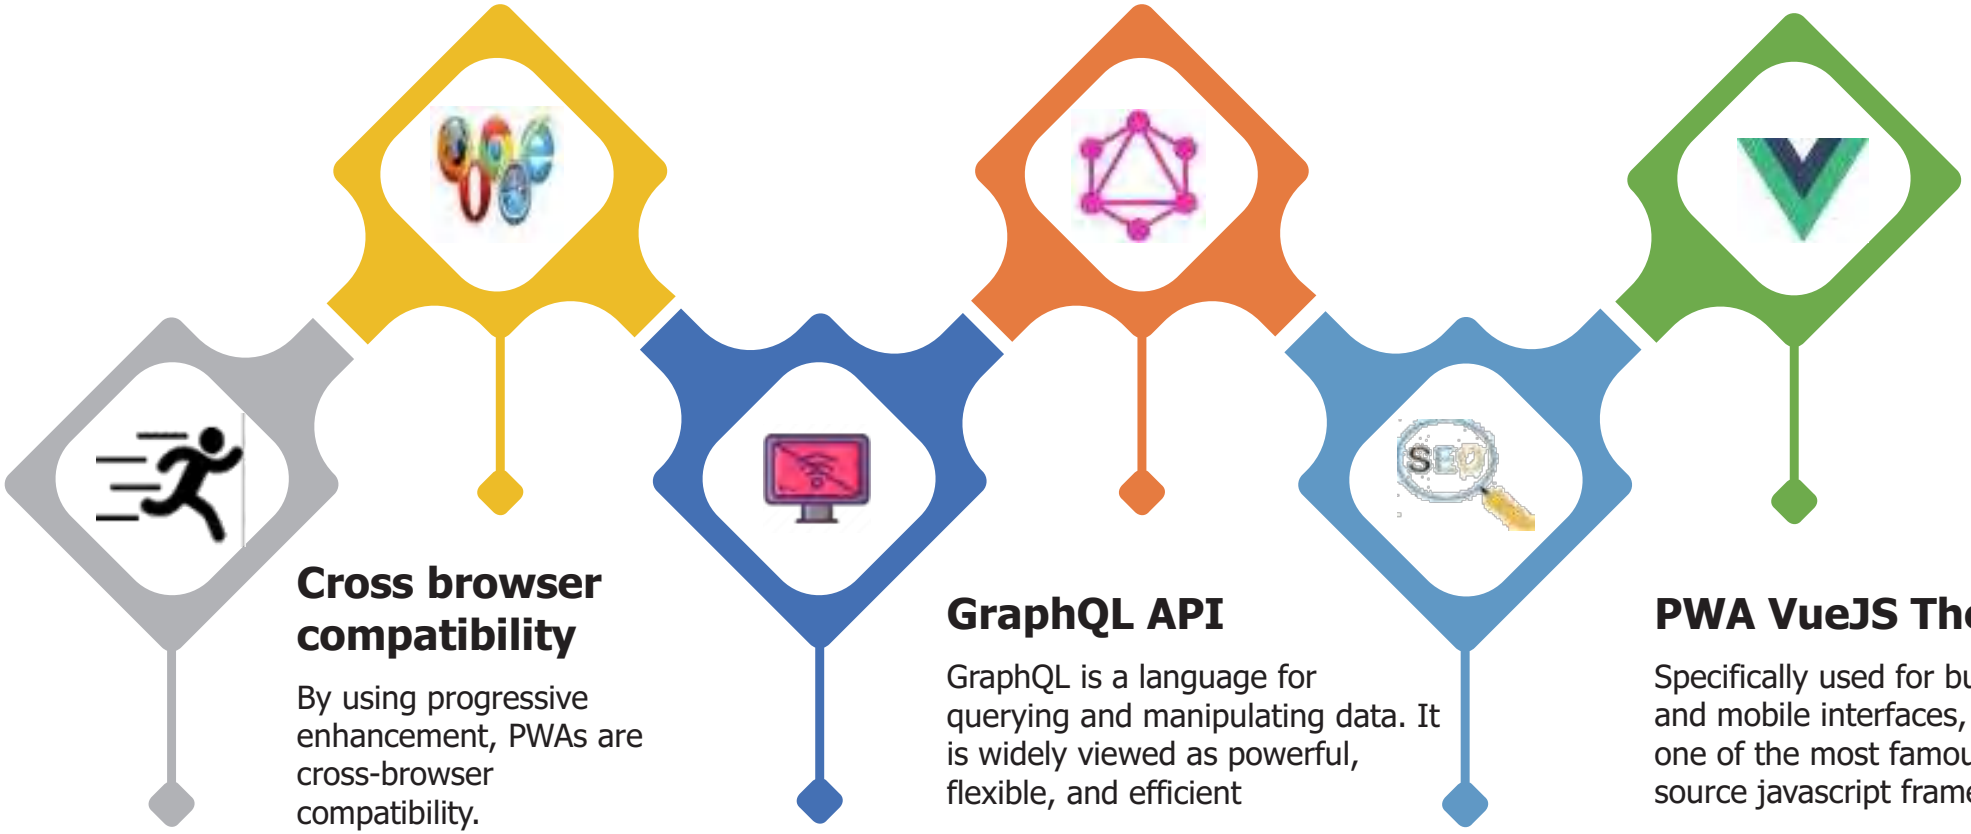
- ROI driven Promotion Campaign Decision Making
- Simplifies monitoring online business growth
- Understand customer behavior better
- Better Segmentation decision based on Recency and Frequency
- Reduce Manual efforts for creating Reports from CSV



Note – MBI can be integrated with Adobe Commerce version only (On-premise, Cloud and Cloud Pro)

Adobe Commerce PWA Studio

Brainvire
Shaping Ideas



Cross browser compatibility

By using progressive enhancement, PWAs are cross-browser compatibility.

GraphQL API

GraphQL is a language for querying and manipulating data. It is widely viewed as powerful, flexible, and efficient

PWA VueJS Theme

Specifically used for building web and mobile interfaces, Vue. js is one of the most famous open-source javascript frameworks.

Fast

With pre caching, PWA's load fast even with poor connectivity on a mobile device.

Offline shopping without internet

This will help users to access the E-commerce website even if they don't have access to internet connectivity.

SEO friendly

Search engines view PWA as a website and can fully index them, It will help users to find your PWA apps with a simple google search.

Adobe Commerce Versions

Brainvire
Shaping Ideas

Adobe Commerce On-Premise

- B2C Ecommerce Out of Box features
- Hosting can be done on any third party cloud service provider (AWS, Azure, Google Cloud, etc.)
